

DISTANCE LEARNING

We understand that some parents do not yet feel comfortable with in-person instruction, but would like to remain enrolled at Trinity Catholic School. These families will be issued a Chromebook to access live online lessons each day. Three lessons, i.e. ELA, Math and one other subject will be taught each day. A teacher may use a rotation of subjects to fulfill the 3 lesson requirement. In addition, special area teachers will have assigned class times for each grade level. Students will have a minimum requirement of attending 1 special area class per week, as assigned. However, students are encouraged to attend all special area classes. Families wishing to transition from online learning to in person instruction may do so at the beginning of each quarter by making such a request in writing 2 weeks prior to the end of the previous quarter. A hybrid approach, with some students in the building and some remaining home with online learning, will be implemented in the event that a classroom has to be closed due to a suspected or confirmed case of COVID19. Online instruction will be provided for these students with the expectation of 3 live lessons each day and special area classes assigned on a rotating schedule until that classroom is suitable for reopening. .
