September 2022

Dear Parents and Guardians,

For the safety and the best interest of our students and staff, Trinity Catholic School will continue to follow NYSDOH and CDC Covid protocols. This may change throughout the school year and updates will be provided as necessary.

Below please find information to help clarify different scenarios.

- **If your child tests positive on a home test**, they must isolate at home for at least 5 days and wear a well fitting mask days 6-10. Please contact our school nurse with positive test results. The nurse will determine their back to school procedure. They must be fever free for 24 hours without the use of medication and symptoms must be resolving.
- **If your child tests negative on a home test, but is exhibiting symptoms**, a negative home OR lab test is required for them to return to school. These should be marked clearly with child's name and date of test and a photo of the test emailed directly to the school nurse: kmood@oswego.org
Please contact the school nurse to verify return to school procedures.
- **If your child has been exposed**, it is recommended that they wear a well fitting mask for 10 days after exposure when indoors, monitor for symptoms, and test 5 days after exposure.
- **If a household member has tested positive** and your child has been exposed, it is recommended they mask for 10 days, monitor for symptoms, and test 5 days after exposure.
- **If your child presents with symptoms at school**, they will be isolated and asked to wear a mask until pickup can be arranged.

At this time social distancing is no longer required but highly recommended when possible. Additional home tests are available through the school office upon request.
